

And Family
FXX
...

It's Not about hate!

It's about who you love...

Who do you love enough to say STOP! My children have rights too!

When will you say it?

This nation, our nation where our children are taught to despise men like George Washington, and Thomas Jefferson. Our children taught to be ashamed of their history and heritage, taught to hate their families! They are under attack from every side, all of white Christian America is told it must bow its head before the hoards of the un-Godly in shame! Our children, our posterity, in whos veins flow two thousand years of civilization, apologizing for being white. What will be said when there are no more White Christian Americans, our mulatto descendants will spit on our graves for our indifference, and God will judge.

We ask no one to hate

We ask only that you love

your children

your nation

your heritage

your God

enough to say:

This must Stop! Now....

Begin today the earn the gratitude of future generations by answering the call of your heart. Join with us today in our crusade to restore sanity. In our work to bring the spirit of Revival to White Christian Americans before it's too late.
